Okay, Attention all you young bucks out there. How come it is that younger women love older men because you know, they've got ambition and money and a nice car and dress well and have their act together. But at the same time, it seems like you younger guys are the ones spending all your money on women and those older guys don't ever have to spend anything at all and the women love them anyway. How does that work? It seems so backwards, doesn't it? Well, this often pondered Secrets of the Universe and many others are ahead of you. In this week's action packed episode. Stay tuned.

From the mist and shrouded mountaintop fortress that is x&y Communications Headquarters. You're listening to the World famous mountaintop podcast. And now your host Scot McKay.

Scot McKay 0:57

Greetings Gentlemen, welcome to another episode of the biggest Show this is of course the mountaintop podcast. My name is Scot McKay at Scot McKay on Twitter real Scot McKay on Instagram Scot McKay on YouTube. The website address is [www dot mountaintop podcast calm](http://www.mountaintoppodcast.com) and I also cordially invite you to join our Facebook group which many of you guys have already done and are enjoying very, very much and getting a lot out of it. That's the mountaintop summit on Facebook. We've got an exciting show for you today. A blast from the past has reappeared gentlemen, his name is Will Hicks. And if you've been around the world of men's dating advice for a while you remember him. You probably remember him best from his on stage presence when he used to basically take a starring role in David de Angelo's live seminars that he would give and he was almost always the audience's most favorite guests that David DeAngelo would invite. He talks a lot about meeting women. He talks a lot About being charming to women. And the best news of all guys is he's back on the scene with what he calls the will h method, the last approach you'll ever need and listen, I'll tell you something. He and I are like the two old bulls on the hill. If you've ever heard the joke about the old bull on the hill, and the young bowl on the hill and the young bowl, I kind of picture him like Enos or Rosco p Coltrane from the old Dukes of Hazzard shows. Hey, look at those cows down there. Let's, let's run down there and get one and the old ball goes, why don't we walk down there and get them all? Well, will he and I are like the old balls. And today we want to talk to you young balls. I know a lot of you guys are a lot more sophisticated than anybody who appeared on the show Dukes of Hazzard, I credit you with that already. But we're going to mostly have a lot of fun talking about what we've learned since our younger days. We're going to poke a little bit of fun at ourselves, of course, and hopefully you guys Whatever your ages right now will have a lot of fun with this show also and maybe get something out of it that you can use to be better with women. So without anything further, my longtime friend will age from the Bronx, New York. What's up my man?

Will Hicks 3:14

What's going on baby boy?

Scot McKay 3:18

Man, it's so great to hear your voice and have you back on the show. And of course, you and I have been chit chatting and plotting and scheming to do this show for a couple weeks now and we finally coordinated our schedules and got it going. And I love the topic I forget which one of us came up with it but you know, both you and I have been around the block a little met lots of women dated lots of women that in relationships, I got a few offspring under my belt literally and figuratively. And you know, there's a lot to talk about here when it comes to what older guys know that younger guys don't right.

Will Hicks 3:55

Yeah, I mean pull like this. I was fortunate enough to have this A woman who was the youngest of 16 children, you gotta be kidding. 16. See, and it both parents, they, everybody, all children had the same parents. And the one thing I learned from that experience was one, I don't want 16 kids. That was the one thing I learned and also that I like not having kids. Because hanging out with her and her siblings, I was overwhelmed. And at that point, I said, You know what, maybe kids are not for me. So that was the defining moment for me not having kids. Because I want to I thought I wanted three kids, you know, one of each, but it just never happened.

Scot McKay 4:35

Having 16 would overwhelm anybody. I mean, can you imagine Thanksgiving? How many turkeys Do you have to cook? They made seven seven turkeys, seven turkeys, any of the parents, the grandparents, all the grandkids, all the cousins, man, it's almost like you have to have Thanksgiving and shifts. It's like half y'all come back on Friday.

Will Hicks 4:52

Yeah, the small table was outside. So it is a

Scot McKay 4:57

small table for the kids. Yeah, it was Outside, which probably resembled an elementary school cafeteria, the day of lunch ladies out there with a knife to cut the turkey. For all those kids.

Will Hicks 5:07

They had a Thanksgiving buffet.

Now there you go.

Scot McKay 5:12

That's really bad. That's the voice of experience talking right

Will Hicks 5:16

there. And the mom and the moms that the father ever came near again, she'd press charges.

Scot McKay 5:25

Why didn't she think of that strategy about I don't know, 15 Kids ago.

Will Hicks 5:32

There is no intimacy going on in that house.

Scot McKay 5:35

So the first order of business talking to these younger guys is either you're going to want kids or you won't. Now you know, we talked about this recently on the show. I think a lot of guys they don't want any children at all, all through their teens early 20s you know when we're out so in our wild oats and having amazing crazy adventures and say, Hey, y'all watch this and you know, cheating death on the daily. I think we're thinking yeah, I mean, kids would come along and ruin Everything. And of course, you made your decision and you're living the dream your way. Right, man, as soon as my first daughter was born, I was smitten, I was okay with it. And then I'll be honest, I thought I was done after my daughter. And then I met Emily and I fall in love with her. And of course, we want to make children together to see

how they turn out, you know, all part of God's dirty little trick. Why in the world would you want to have a full time responsibility for the next 18 years? Just to see how it turns out, right, but nevertheless, my son was born. I have a son. He's a chip off the old block. Excellent, big fun. Then Emily had never had a daughter herself before. So she's like, honey, I think I'd like to have another baby and I'm like, Oh, hell no. Right. I mean, that's enough. I'm done. I mean, my son damn near killed us. The kid would not sleep and he got into everything. I mean, he was just a ball of impetuous trouble and kind of still is, but we love them anyway. Right? Like I said, chip off the old block. But my wife who I love talked me into another kid. So she had a baby. And it was a little girl. You know, God was smiling on us. Right? And that little girl has just now turned eight years old. And she was born when I was 45. And people were like, y'all have to be crazy. I mean, there's no way you can be a father again at age 45. I mean, that kids going to be graduating from high school when you're 63. Dude, like, Okay, well, I guess you know, it is what it is, at this point. Well, Sarah has turned out to be just a treasure. I mean, she's a lot of fun. Because of what she's into. She's taken us on adventures that we never would have had apart from her. And, you know, I've kind of come to the conclusion Personally, I mean, you know, this is our cup of tea that we're drinking, right? That what is the true worth of having the nest freed up once you hit your 50s so that you know you can go have adventures or whatever. I mean, these kids are bringing a lot of fun to us. They're helping us enjoy life more. I don't really care. That they're going to be here till I'm in my mid 60s because I plan on being healthy or whatever after that. So I mean, I guess it's all a matter of perspective. But definitely guys, probably the first order of business here is whether you decide you want kids or not, that may be subject to change, it may not be definitely make sure that you get into relationships with women who are on the same page with you about that. Otherwise, what you necessarily want isn't going to necessarily be what happens so obviously, you've been very good about keeping yourself in check and hanging out with the right women over the years. If you haven't fathered any children yet.

Will Hicks 8:34

You don't get to be my age with no kids by accident. You know, you don't you don't wake up one day in your 40s. But Oh, damn, I got no kids. That's not usually how it works. Believe it or not, I planned it that way. No,

Scot McKay 8:48

no, I do coach a lot of guys who are in their 50s or even 60s who never had children and decided maybe that they want to, but I would say based on mainstream percentages, and the purest sense. You're absolutely right. I mean, you don't not have children by accident.

Will Hicks 9:05

No, a lot of the cats I hang out with that I've been hanging out with for decades. They don't have kids either. It's like a bunch of us. No, no kids is hanging out.

Scot McKay 9:14

Well, that's why you guys are hanging out with each other all the dads are out, you know getting drunk together commiserating about how their kids are going to kill them and figuring out how to pay for college and stuff.

Will Hicks 9:23

Pretty much yeah,

Scot McKay 9:24

so if I had to guess I would think that the number one question a lot of younger guys would have to older guys like us would be why do younger women like older men so much? What's up with that?

Will Hicks 9:36

lobe speaking from experience?

All the guys usually have their stuff together in their eyes. Now whether or not that's true or not as remains to be seen. But when you're young, as a young guy, women don't really want you so

Scot McKay 9:53

straight up right

Will Hicks 9:54

there. They don't know you don't have a job, you know, making no money, you know, yeah, they want someone who can need to take care of them, you know, provide stability, the all kind of stuff. And to them older guys seem like that. So all the Young Dudes, I'm here to tell you that when you're younger, get your stuff together, worry about your career, getting your money and your paper up getting your

house, your business, your car, get all that straight. Because as you get older, and you have all that, it'd be a lot easier for you to go into the whole social world. And you can take the women that you couldn't take when using your early 20s, which would be around that age.

Scot McKay 10:31

Well, I'll tell you, I'll vouch from personal experience that I did better dating women who were 23-24 years old when I was 38 or 39 years old, and I personally did when I was 23, or 24. Like those women. Yep.

Will Hicks 10:44

And I'll tell you, when I was in high school, now, the bad chicks in high school when they Hispanic black, white, whatever, they all dated cats that were at the school. They did it guys mid 30s. You know, they would all get picked up at the end of the school day. You know, you come in Going to skateboard your bike you will stand a chance with these girls. You know, they get picked up by guys in cars who got jobs, usually wives and families and other kids. But that's besides the point.

Scot McKay 11:11

Yeah, you know what's really funny? You're talking about guys showing up on bikes and skateboards. These guys know my kids are involved in BMX, and they have a pro series for BMX racers. And these guys are putting their lives on the line and they're amazing athletes, but the problem is they're on 20 inch wheel bikes and all the girls will look at them like you guys are a bunch of dorks. So you have all these incredible athletes and the girls are completely uninterested in them for the most part because they don't understand why they're doing such a silly little kid sport. So you're absolutely right on many levels. Now I don't know how skateboarders do. Personally, I don't know many pro skateboarders at all and I certainly don't know many with hot girlfriends, but I know they're probably lots of guys out there doing nitrus circus or whatever. And the women just love daredevils and then they get those women to I adore them and love them. But yeah, definitely on the regular if you're a cruise around on a bicycle or a skateboard and another guy's got his life together and he actually has a car, that's going to be a bit of an advantage for sure. Yeah.

Will Hicks 12:14

And I hate to break it to you youngins but us men are judges were pre judged. And we're judged on a few basic things. Number one, who we hang out with number two, the car we drive, and you say, Oh,

well a Prius is economical and all that. Yeah, okay. You show up in a Benz or a Lambo. People look at you differently, okay?

Scot McKay 12:37

Sex is a Ford or a pickup truck or four wheel drive, right? Is that in the Platinum package? Who you have such pretty truck? Can I take a ride?

Will Hicks 12:45

It depends on where you are. And the third thing is the woman on your arm. Now, you could be the most dorky is stupidest guy, no respect to having at the company gathering or one of the something with the company. You should With a hot girlfriend, you've just earned the respect of everyone at that venue. Male and female. Yes. They're all trying to figure out how the hell did this guy pull her? by the fact there's a progressive commercial like that. The goofy guy Jamie, that who's the butt of all the jokes, writing or commercial? Yeah, he invited all his co workers to his house, but he didn't tell him that it was a mansion. And he's loaded. And he has a drop dead gorgeous wife and great kids and he can sing. All his coworkers have the sun look on their face like

Scot McKay 13:38

and the wife is like the South American supermodel that accent right? Exactly. She's like, Oh, no, just when she was little like a child, right?

Will Hicks 13:47

You know, flows look at all remedial next to her when?

Scot McKay 13:51

Well, the reason why that commercial is funny is because of the irony. Right? Because it's so improbable. So the guys listening to this show are Probably left wondering, okay, Look, man, I'm more like Don Knotts than James Bond. How do I pull this off? You know, especially as a young guy, I say stupid things. I don't have my act together. I'm not going to get my act together by tomorrow morning. So come on, well, man, what's up with that? What can I do right now to be more like the older guys who get the younger women? Do I really have to have half a million dollars in the bank and have my career all sewn up by 22? Or what I mean, what's the deal here? And I'll tell you just to kind of assuage these

guys a little bit when I was 2324 years old. I've already said I was less effective with the women my own age than I was when I was 15 years their senior 15 years later, I mean, obviously not the same women time passes, right. But back then my Marine Corps buddies and I, and you know, we're streaming around the desert on hundred and 50 horsepower motorcycles. You know, that was back when the whole crotch rocket phenomenon was still relatively new. And that was it. Extremely intriguing to women. They all wanted to go for a ride. And we were, you know, like the outlaw guys, you know doing wheelies in the desert and the cops chasing us around and stuff. I don't want to say too much to incriminate myself. Right. But I think the statute of limitations is probably but um, the women loved us the girls like this, but even with the motorcycles and that are James Dean cool about us. Ultimately, they would roll their eyes and go, these guys are a bunch of little boys and eventually pretty much lose interest in walk away, compared to how compelling it was to have that. I don't know, I'm going to call it a cocktail of traits, you know, kind of with the Rat Pack mentality, you know, like, why we're, why we're Sinatra and Dean Martin, so cool, you know, because they were older guys, even in the early 60s. Right? What is it about that cocktail traits that older guys possess above and beyond what your bank account looks like? What you're doing Looks like that just gives women that emotional, that emotional, thrilling side because, you know, it's all about how you make a woman feel right? Well, so what do older men make women feel that younger guys just haven't figured out yet.

Will Hicks 16:16

First thing I can say is, even with myself, I'm always impeccably dressed. I teach all my guys dress, how you like to be perceived or how you want to be perceived. That's the first thing. The next thing is you got to pose to be chose. Now, you got to put yourself in situations and places where there are lots of hot chicks. That's your type, whatever your archetype is, where they're there and in abundance. So just from being there, some of them will just choose you because it just so many, like for instance, I've had a security business for them me 30 years. And when I first learned about security, I would work the spots yard work in different clubs. upscale clubs were allowed Pretty women hang out at and my mind I'm saying man is great. Every week, they bring in hundreds of women just for me. That's what I'm talking about. They're all here for me. And it never fails. Every week hundreds of women came in there at my pick of the litter, you know, I could talk to I wanted to and whatever my type was. So most guys, they don't put themselves with a webinar. Like the famous bank robber say you know, why do you Why did you robbing banks that's where the money us go where the women are.

Scot McKay 17:32

You know, I think a lot of younger guys don't pay attention to how they look. You know, the stereotype is cargo shorts and a baseball cap you're wearing backwards and all these things that if you look at the websites for top 10 fashion fo paws committed by men, they're usually things that guys under 30 are infamous for doing. I mean, I've read somewhere in the past that no guy over 30 should ever wear his

baseball cap backwards ever again or wear cargo shorts let alone flip flops in public. And I think that's sort of what they're talking about they're onto something right there.

Will Hicks 18:05

Oh yeah, I mean, I guess like I said, I mean a lot of women especially younger women, they're looking for sharp the dress guys that's a you know they check you out from head to toe. They look to see what kind of shoes you wear they look at your haircut they look at your hands guys getting manicures they women check out your hands they don't want to hold hands with someone looks like he just finished up the corn patch or you know left the construction saying wants to hold hands with you.

Scot McKay 18:28

The corn patch children of the corner

Will Hicks 18:35

fingernails all raggedly you can't touch it one more ragged raggedy fingernails you know it would hurt

Scot McKay 18:40

I mean so many guys out there. So true man just mixing a nail file right? guys out there look like skinny Pete from breaking bad or they're running around in a Monster Energy branded hoodie thinking like, oh, now the chicks are gonna take me I'm looking cool. Now bra and women are just rolling their eyes.

Will Hicks 19:00

The only time that works is if you've already been with that chip.

Scot McKay 19:04

relax a little. Oh, how I don't know that. I mean, man, my wife and I, I'll tell you what, we're not going to be broadcasting video for mornings at our house. Okay, my wife looks surprisingly amazing when she wakes up in the morning, you know the old joke about don't marry a woman till you see what she looks like when she wakes up in the morning. But we're all cool there. But I'm still not going to broadcast video of mornings at Casa McKay because, you know, we are very, very relaxed around here we're

talking, you know, boxer shorts and lots of sweatpants and mismatched socks because we put them on in the dark and bedhead and so forth and so on hell, one of the reasons above and beyond the fact that I'm losing my hair so it looks better. Otherwise I look like the old guy from up you know that Spencer Tracy thing if I let my hair grow out nowadays because I've wavy hair, it's a disaster. So I just took control and basically shaved my head down to like a one or a two all the way around and I look pretty good. The guys who have done Facebook Lives with us on the Facebook group can vouch for that, you know, I mean, I look like crap when my hair grows out compared to when it's nice and neatly trimmed. But I'll tell you, the best part about that is I get out of the shower, and there's no such thing as bedhead anymore. You know, I just take a towel to my head, and I'm done for the day, I don't have to worry about it. And I think that's in large part due to the fact that you know, I just don't want to look ragged, like you're talking about. So I mean, there's something to be said for that. And I'll tell you what, that brings us to another point. Your looks are harder to cultivate when you're older. You know, we all get older. And you know, women aren't the only ones whose looks depreciate with age, yet women still like older men better than younger men. What I tell the younger guys well as you know, if you could somehow bottle up with the older guys have figured out and take a big old swig of it. You would suddenly be everything Women love about older men in the younger man's bodily form. You basically get all the women that's what I tell them because I don't think women want older men because they're older specifically

Will Hicks 21:08

when you agree, I definitely agree. And at the same time I think the younger guys for providing an avenue for me with Lady so thank you guys

Scot McKay 21:18

thank you for handing over all your women you know without any hassle whatsoever thank you for posing so little competition right?

Will Hicks 21:25

The 8020 rules still apply

Scot McKay 21:28

the 80 year old guys are getting all the 20 year old women.

Will Hicks 21:31

Like I said

20 rule still applies

Scot McKay 21:36

some old guiding perrito is getting all the women he's breaking them all in but you know

Will Hicks 21:40

what, a lot of the young guys a day the stuff that this saying that women is just crazy. A lot of women come to me and say what's up with these guys know the stuff that they're saying when they approach them and they're saying off the wall stuff and, you know, just grabbing them up to you know, grabbing a arm or you know a shorty this So you know, that's not what women don't respond to that especially in the me to error and now you can't just be grabbing up women like that gravity or trying to get their attention and you know

Scot McKay 22:11

just doesn't work did you say the me to era or the me to error because I think either would apply both either they both have lie about the me to era error.

Will Hicks 22:21

They both look Lima. What you know what? I'm waiting for the heat to movement, you know cuz they all this stuff about everything is across the board. I'm waiting to hear about that.

Scot McKay 22:32

Only Whatever happened to virtuous masculinity. You know, we talked about that on this show all the time. So we're not going to flog that dead horse here. But a lot of guys have not heard nearly enough about how their masculinity really is virtuous and the toxic version of it is a vice. So we shouldn't throw out the proverbial baby with the bathwater with masculinity. virtuous masculinity is wonderful. And there's also such thing as toxic femininity. I mean, gold diggers come to mind. I mean, the man wants to

be a provider. He wants Protecting the woman basically just takes advantage and takes takes takes. That would be the feminine nature coming out in toxic form. So you're right. You know, you never hear about that other side. It's a lot of political agenda. Sure. And of course, women need to be respected and need to be paid equal for equal work. You could argue that has to do with negotiation and being a little bit less timid up front in that process. But either way, something that has to happen. True, I agree. But notwithstanding all that, you know, when you're talking about men, not understanding how to relate to women at an early age, you get a lot that really harks back to that very, very poignant old joke about the two balls on the hill. A lot of guys frankly will are running down there trying to get one. If you don't kiss a woman on the first date, you're going to be putting the just be friendzone Kino escalation all these things are young bowl stuff. Yeah. You could probably call it young bullshit. Basically, you know, we could coin that phrase right now. Young bullshit. All that old pickup artist stuff that appealed so immediately and so strongly to those younger guys who were not getting success with women, it's like, yes, these women have rejected me. Now it's going to be payback time, I'm going to get these women to sleep with me, I'm going to trick them into getting in bed with me and getting naked and giving me blowjobs. And I'm going to do it because I just kind of brushed up against a robo and that kind of soften them up so that I could touch their hand and then when I held their hand that led to me, escorting them across the street with my elbow, and then I could kiss them and that could screw them, you know? And it's just, that's not how it works, Papa, you know, wow, women like you, you've got to make women want you. You've got to give them that feeling that they're safe and comfortable in your presence. Then, basically, you let the game come to you instead of like running game on them. Exactly. How's that for a quote? Exactly what happens is when you treat women with respect, when you let your masculinity do the heavy lifting, when you have the patience, when you have self control all these traits of wait for it, mature adult manhood. Then the women decide, you know, I'm really horny for this guy, how long you gonna make me wait, and really the amount of time that you have to wait sometimes as a matter of 15 or 20 minutes will

Will Hicks 25:30

true but most young guys just are that impatient aren't there? They're extremely impatient. It all starts with they know how the approach to women know because you're training these women on how to treat you. And it starts with how you know how you approach them. If you leading with buying them drinks and let me take you out to dinner. You're already saying that I'm not enough. We need to entice me with some other stuff in order to make me more palatable. For you to want to hang out with me on a subconscious level that's what you're saying guys. And dancing was about the friend zone one of the guys send me an email. This is me This is for you, Jeff T. If a woman asks you, you know, see you you're hanging out with her and she said, Oh, you know, I want to think so. I just want to be friends first. Your response back to that is okay, that's cool. What? How often do you have sex with your friends? And wait for answer. Most women will say oh no, I don't have sex with my friends. Then you say well, neither do I. So there's no need for us to be friends. With those guys they train date you train these women on how to treat you. That's why I tell guys don't buy girls drinks messy women you don't know. Why would you

guys go out with drinking budgets. And another thing guys you guys take all the fun out of going out it's almost like going to another job guys leaving the club anyway. Well,

Scot McKay 26:52

man, it's tough. Now I gotta go clock into my other job betting on women at clubs at night. No, that was talked about that in the past. It's so true. This whole idea of buying women stuff to try to earn their affection, it absolutely broadcasts that you don't feel like you're enough by yourself and the part that I've never understood and listen, I'm an X X chromosome. I am a dude, I am a man. Okay. In case that isn't obvious from listening to this, I am male, I assure you, okay. I can't for the life of me figure out how my own gender thinks in this regard. How do so many of us think that it's great to try to buy a woman's affection when quite literally 100% of the women out there are onto it. They figured out that you're not going to buy my affection. This is really lame. Clearly you don't think you're enough? 100% of the women already understand that and like 90% of the men are clueless about it. I don't understand how that light bulb never goes off for so many guys, but your Absolutely correct. And then what happens is, a lot of guys never grow out of that mindset. We're talking about older men and younger women, you're talking about the importance also of men having their act together and having money and having a car sometimes that just exacerbates the whole problem. Like, they'll be 40 years old and worth a million or \$2. And they'll go, Okay, I'm going to take this young girl out, and I'm going to impress her, because we're going to go to Ruth's Chris Steakhouse on the first day, and I'm going to take her for surf and turf at some big seafood restaurant on the second. Next thing, you know, just like you said, so eloquently, will you've trained this woman, not only how to treat you like an ATM machine, by the way, because they're coming out of pocket every time we go out with her, but you've set a precedent, the habits have been formed. You know, you've started building traditions. This is how your relationships gonna go, because that's the precedent you set. I'm going to take you out and spend \$250 on you every time we go out. So when she wants you to take her on, say a shopping date. Or buy new tires for her car, or come to her rescue in some kind of financial emergency. And you put your foot down and say, Well, no, that's where I draw the line, I'm not going to do it, she's going to be confused. And you can blame her for being a gold digger. You can blame her for this and that, but it's your problem because you lead. And I think that's something a lot of guys don't understand, regardless of their age is your leadership. The training you give those women like you said well on how to treat you or what to expect from you isn't just going to be in the moment. As long as you stay with that woman. That precedent has been set that die has been cast.

Will Hicks 29:38

Yep. And lastly, one of the one of the modules and one of the courses that she teaches is called ATM. You know, are you ready for dating, and the ATM stands for attention, time and money. Those are the three currencies that women speak and I'll leave it at that. And also guys dating is counter productive. How many times you've heard the guy took him out he got the job like that. You know Friday I just be

Friday and he can't wait for Friday and then Friday comes and then Monday rolls around you can't wait to hear about this big date this guy had nothing happened except his wallets later as well as letter any end tonight ended in a pretty non non gratuitous hug where she's like,

Unknown Speaker 30:28

thank you. Such a nice time.

Will Hicks 30:33

You are so nice. You can call me later so that you don't see young guys are they're nice guys. A lot of these guys they're they're emotionally driven and she calls her booty call since it's only 10 o'clock. No they get to that you know. So Oh yeah. It will see guys are mostly driven. for the day. There's no logic involved in that really nice that let me give you a definition of a nice guy. A nice guy is the guy who won Go out with spend time with and not feel sexually threatened. That is a nice guy nice guys the guys you can call on an off p week where she still wants to go out to eat but doesn't have any money or doesn't want to spend her money and she could call the nice guy surely god no problem because he just wants to spend time with him hoping she'll see that he's the one a nice guy is the guy who the girl calls to take her out the hang out with until the guy like me who's gonna bang the hell out of it gets off work or gets done doing I'm doing so she doesn't want to be alone and she wants to kill three four hours so she calls the nice guy to hang out with until she's ready to go that's the definition of a better dinner. Wow that was before this there's so many purposes for nice guys. It's ridiculous.

Scot McKay 31:52

Fixing the car Yeah, all the Facebook groups for men were guys basically share their problems with each other and On the cumulative input of strangers on the internet for advice half of them I kid you not half of them are like okay well I've been fixing this woman's car and doing home repairs for but she still won't even so much as kiss me What's the problem? I mean half of them are that yeah I'm a lot of things you know. I'm not tell women I am not a nice guy. I'm a nice person. But I'm not a nice guy. You're not Mr. Nice Guy, and

Will Hicks 32:30

obviously a nice guy. I'm a nice person. Then remember guys, no good deed goes unpunished. The old saying no good deed goes unpunished. Well, I'll tell you what,

Scot McKay 32:39

I'll go ahead and share something with you guys. I'll admit to something to you guys. That is very embarrassing. Right after my divorce, obviously, I was vulnerable and not such a good way because I was codependent on a crazy woman for seven years. So I thought all women were going to be crazy. I was a bad guy simply for existing as a heterosexual Man, I mean, this was way before that megaphone got really loud to all of us guys about how we're all just depraved because we're heterosexual and male, which of course isn't true. But back then I even believed it. And I remember I got on match.com and I met and fun to hang out with a woman who was adorable. And we went out probably for four months, I was buying tickets to spurs games, taking her out to dinner, all we ever did was hold hands, I couldn't figure out a way to kiss her. She just it was like hanging out with one of the guys you know, she didn't have a whole lot. I mean, as cute and as adorable and frankly sexy as she was. You know, she liked to go drink beer and talk shop and she kind of was like hanging out with one of the guys to a point where I just felt dumb. even thinking about kissing her and yet I was very horny for and to this day. Well, I can't go back in mindset and figure out what I was thinking. Because it seems to me so easy now just to sit down with her on the second or third date and go, you know, you seem like it's been a while since you've been with a guy who knows how to treat you. Right? And she probably would have gone Oh, yeah, probably yada, yada, blah, blah, blah. And the next thing out of my mouth could have been and should have been. So when's the last time a real man gave you the kind of earthshaking orgasms that you know you deserve? It could have been that simple, and she would have gone Oh, you know what? It's been a long time. I could probably use it. Great. Let me go do that for you right now. I agree. I mean, nowadays To me, it seems like this is a simple conversation, you know, no holds barred just throw it on the table and see what happens. What's the worst thing that can happen? No, stay away from me. I only like you as a friend. Great. Well, we solved the problem about the Spurs tickets and etc, etc. You know, we're just going to be friends, you know, we need to go Dutch on things and I mean, it's just to me, there's nothing to be afraid of here yet guys. fear that. Even after they have the woman sitting in front of them, ostensibly on a date with them, it's like they didn't reject you guys. They like you. They're there. They're there because they see something positive about you. Why not at least talk about this, right? I mean, what is there to be afraid of, but the nice guy is thinking, Oh, well, I don't want I don't want to be anything other than a gentleman. I want to do things that are in this woman's best interest. But we talked about it on the show before, sometimes what's in her best interest is multiple orgasms, and you're the guy here, but she's not going to push you. She's not going to hint to you. She's gonna wait for you to man, I'm ready.

Will Hicks 35:33

I also think that, guys, you should never say that you're actually out on a date with women. Because again, usually a date usually ends with no sex. That's why it's called that date. For instance, I gave a sample I'll share some from what I used to do. This was a date with me, okay. First of all is a girl You know, you want to hang out with me. And then that's okay. She says yeah, cool. I would invite her to one of my basketball games, so I would encourage all you guys if you have a hobby of sport or something

you like to do that would be where you would have the woman hang out with you in your preferred environment something you're good at something you do. So for me, it was basketball. So I would invite her to one of my games. Now she's watching me she's sitting in the stands watching me run up and down the court for a couple hours you know, get sweaty play ball, whatever. After the game. Now mind you were playing. These are professional leagues played in so the world class facilities, they got showers, all that stuff. I don't shower at the facility. I say Okay, you know what, listen, I so appreciate you coming to watch me play. Now notice I'm filling in certain sexual innuendos and double entendres things that can be misconstrued. So, verbiage is key. So I'm saying so thank you coming to see me play basketball. I really appreciate that. Listen, and I know it's late. Do you have a curfew? There's someplace you need to be someplace you gotta go. Now most grown adults are going to say their prime is going to kick in like, Nah, I gotta be No, I'm good. No, I don't have a curfew. I'm little kid. So I'm like, Okay, cool. So now I tell her that Listen, I have to go home and take a shower. After that. I'll take you wherever you need to go. So you can almost see Look at her face. I did. He got me. Oh, man. I should have said I had somewhere to go. But it's still cool because we're having a good time. So now we go. We're back in the house. I'm taking a shower. She's sitting there with the remote watching TV. And I have no intention if she wants to go wherever I will take her but here's the problem. Now I'm taking one of those those female like showers. You know it was the last like 45 minutes or I'm going to check my messages and some other stuff. And also now but it's I'm I'm done with the shower. She's knocked out on the bed. So, that's it. For me, that's a more fun scenario then going out on your typical date, so it's better just to get the woman just to hang out with you. So there's a lot of activities that young guys do with you know, whatever it is I may even get a come play video games with you that's a better date then you spend in money that you don't have going out places that logistically nothing's gonna happen.

Scot McKay 38:32

Well, several things there rapid fire First of all, I have had quote unquote first dates with women where I took them furniture shopping, because I needed a new couch where I took them grocery shopping because I needed a few things right? I had a woman come over to my house and help me give out candy to the neighborhood kids on Halloween one time just happen to be October 31. And those are always work out fine because it's all about connection and getting to know each other. Yes, right. Second of all, if a woman ever Told me Hey, look, I gotta be home by 1045 because I gotta catch a plane to Boston in the morning or whatever. And I just, you know, I have a curfew, I would make sure she was home by 1044. Oh, no doubt. And she would say around 10 o'clock, you know, I'm having such good time with you. Maybe I can stay up to like 11 or 1115 Oh, hell, no, I'm gonna leave her wanting more. I'm going to be her protector. I'm going to be the man of the house figuratively. And I'm going to make sure she gets what's best for her. What she already told me before she got all hot and bothered was to be home by 1045 sharp. And I'll tell you the response on the part of women when I cared enough about their well being to do what they said they needed done. And to be the man who enforced that for them. When it was their will to begin with. was so incredibly powerful. They were like, Oh my God, this guy cares about me and what I said I needed and what I gotta get done and being responsible and being a protector and being a provider, or the cares about getting in my pants, and I'll tell you what, Not only did they want to

see me again, but the next time they saw me they basically attacked me. I mean, it was game on with reckless abandon every time. I mean, it was like clockwork talk about having enough wisdom based on cumulative experience with women to know that if you're a little patient now it's going to pay off big time later. There's a prime example. And the other thing is you're talking about, hey, come watch me play basketball. Somebody guys make this mistake of setting up their buddies to steal their girlfriends. It's like, Hey, you know, my buddies in a band and they're playing tonight when I go see them? Well, at the end of the night, she's going to want to meet your friend your dumb ass.

Will Hicks 40:37

Pretty much. Yeah,

Scot McKay 40:39

I mean, but guys do this all the time. Or like now I've got the woman Hey, I got a great idea for a date together. Let's go to a smoky club that's known for being a meat market. So all these other guys can hit on you when I already have you in my life. I mean, these are the mistakes young guys make well,

Will Hicks 40:55

and this is why I disowned all my friends that are in bands.

Scot McKay 41:00

Because you're not good, you're not very good on the guitar yourself. rock

Will Hicks 41:06

bands offline.

Absolutely.

Well, you know, we're running out of time. But I want to give these guys a chance to go to your website. And I'm going to link to that it's called the will h method, the last approach you'll ever need, I would

argue that, you know, maybe your approach and my approach could work pretty well in tandem together, but I love the tagline anyway. And tell guys a little bit about what you've got in store for them with the will h method? Well, I mean, first off, is going to show you how to make yourself stand out and be important that go over mindset, tactics, techniques. I teach how to surround yourself with social success. I teach you how to own the room. I also teach you how to assess whether or not you even want to talk to this person that you've even approached. Because a lot of times you know, you don't want to get out of it. You get into it, but getting out of it's another thing. And that's my least you know, I teach people how to Be remember,

Scot McKay 42:01

man, I got about five new podcast topics just from that paragraph you recited, how to be remembered how to set yourself apart is significant and important. How to own the room. Man. That's what I've talked about an invincible. It's a popular topic and there are a lot of ways to go about it. So that's exciting stuff. Guys, definitely go check out the will h method [www dot mountaintop podcast com](http://www.mountaintoppodcast.com) front slash will h wi LL. h. And when you get there, you'll be able to check out the last approach you'll ever need. learn a little bit more about will age and get to some and to all you young guys out there. Listen, you can do this. Relax and have fun. The girls love you just like my English teacher wrote in my yearbook when I was in seventh grade, and obviously was a very young guy when I was in seventh grade. But truer words were never spoken and as I look back that guy was an all American lacrosse player who had just graduated and it wasn't his first year teaching and he had plenty of girls in his Life he was doing quite well for himself and that was real talk. And you know that's pretty much the secret of the universe. So guys definitely check that out. Will Hicks man What a great talk I'm really glad we finally got together and made this episode happen I'm sure the guys got a lot out of it thank you so much man sky You know it's always a pleasure man chopping it up with you know, reminisce and going down memory lane. always appreciate it.
